Frankfurt a. M., 26.08.2021

AZ: 070754 Confirmation after DIN EN ISO 9001:2015

Dear Ms Muysen,

we confirm that the company

MELEXIS NV
Rozendaalstraat 12
8900 Ieper, Belgium

is in the process of re-certification. The ISO 9001:2015 assessments required for maintenance have been carried out and concluded with a positive certification recommendation by the auditor.

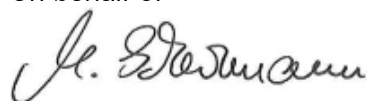

Currently, the procedure is in the required DQS internal technical review process. As soon as this is expected to be completed positively in the course of the next working days, the certificate according to ISO 9001:2015 will be issued.

Reasons for this delay are different, but almost a result of the situation still given by Covid-19. Due to the COVID-19 pandemic, lots of audit has been postponed several times, and finally scheduled starting June, July and August with the result of facing some delays in finalizing document reviews and certificate issuing.

Apologies for the delay and these inconveniences, kind regards

DQS GmbH
Deutsche Gesellschaft zur Zertifizierung von Managementsystemen
