Dividend

The Board of Directors decided to pay out an interim dividend of 1.00 EUR gross per share, an increase of 43% compared with last year. The Melexis shares will start trading ex coupon on October 21, 2014 (opening of the market). The record date is October 22, 2014 (closing of the market) and the dividend will be payable as from October 23, 2014.

Outlook

We expect in the third quarter of 2014 a low single digit sales growth versus the second quarter of 2014. For full year 2014, Melexis now expects sales growth to be between 17% and 20%, a gross profit margin above 47% and an operating margin above 25%, all taking into account a EUR/USD exchange rate of 1.35.

Business comment – Françoise Chombar, CEO:

"On the back of positive customer and market sentiment, Melexis achieved a 22% year-over-year sales growth, better than anticipated. Melexis equally benefited from a favorable product mix, which we expect to sustain for the remainder of the year. All this allows us to increase our sales guidance and profit margins again for full year 2014.

In the second quarter of 2014, in line with the first quarter, the main contributors for growth were magnetic sensors, sensor interfaces and, outside of the sensor space, motor control drivers. In addition we saw an above average performance for pressure sensors and tire pressure monitoring systems (TPMS).

Sales to automotive customers represented 87% of total sales. Year-over-year outside automotive sales growth accelerated from 7% in the first quarter to 13% in the second quarter.

The portion of ASSP sales in the second quarter of 2014 represented 56%, the same level as the first quarter of 2014".

The statutory auditors BDO Bedrijfsrevisoren Burg. Ven. CVBA, have confirmed that their review procedures, which have been substantially completed, have not revealed material adjustments which would have to be made to the accounting information included in this press release.
