

Press release:

Melexis Q3 2014 results - On the right track

Intermediate declaration by the Board of Directors

leper, Belgium – October 22nd, 2014, 07.00 hrs CET

Sales for the third quarter of 2014 were 86.6 million EUR, an increase of 22% compared to the same quarter of the previous year and an increase of 6% versus the previous quarter. The EUR/USD exchange rate evolution had a negative impact of 1% compared to the same quarter of the previous year and a positive impact of 1% compared to the previous quarter.

Gross margin was 43.0 million EUR, an increase of 29% compared to the same quarter of last year. R&D expenses were at 12.7% of sales, G&A was at 4.6% and Selling was at 2.1% of sales. The operating result was 26.2 million EUR, an increase of 49% compared to the same quarter of 2013. Net income was 24.7 million EUR, 61 cent per share, an increase of 64% compared to 15,0 million EUR or 37 cent per share in the third quarter of 2013.

Outlook

We expect in the fourth quarter of 2014 a low single digit sales decrease versus the third quarter of 2014, resulting in a full year sales growth at the high end of our previous guidance of 17% to 20%, a gross profit margin above 47% and an operating margin above 26%, all taking into account the current EUR/USD exchange rate.

Business comment - Françoise Chombar, CEO:

"During the first nine months of the year, the main contributors for growth were magnetic sensors, sensor interfaces and, outside of the sensor space, motor control drivers. In addition we saw an above average performance for temperature sensors in the third quarter.

Sales to automotive customers represented 88% of total sales. Year-to-date outside automotive sales growth stands now at 10% versus previous year.

The portion of ASSP sales in the third quarter of 2014 represented 55% versus 56% in the second quarter of 2014.

Demand in the third quarter continued to be strong. In the fourth quarter, we are expecting the usual inventory cramps, while we remain confident about the underlying demand."

Financial comment – Karen van Griensven, CFO:

"Robust Q3 sales growth currently not matched by increased operational costs resulted in a higher than expected margin expansion. Our mid-term target for R&D expenses compared to sales remains at 14% to 15%."

Financial Calendar

- Dividend pay date: October 23rd, 2014 (ex coupon on October 21st, 2014)
- Publication FY 2014 Results: February 4, 2015

The company's results will be discussed in a **conference call** on Wednesday, October 22nd, 2014 at 17 hrs CET. The conference call will be in English. You have to register for this conference call in advance. You can register by clicking on the following link and filling out the requested information:

About Melexis

Melexis NV (Euronext Brussels: MELE) is a mixed signal semiconductor manufacturer. Melexis designs, develops, tests and markets advanced integrated semiconductor devices for the automotive industry. Our core experience supplying ICs for automotive electronics sustains the expansion into Application Specific Standard Products for industrial and consumer product applications. Melexis enthusiastically pursues its role as a component supplier whose innovations are the essential element in nearly every one of our customers' extraordinary systems. At Melexis we engineer the sustainable future. Melexis' products include sensor, communication, actuator ICs and Application Specific Integrated Circuits (ASICs). Further information about Melexis can be found at http://www.melexis.com.

Disclaimer

Except for those statements that report the Company's historical results, the statements being made are forward looking statements. Actual results could differ materially from those projected in the forwardlooking statements. Factors which could cause actual results to differ from expectations include the following: volatility in supply and demand affecting revenues and market prices, price and availability of silicon foundry, assembly and test prices, assembly and test subcontract capacity required to meet financial targets and/or meet backlog requirements, risks and delays associated with bringing up new production capabilities or with deliveries from subcontractors, timing and market acceptance of new products, increased expenses associated with new product acceptance of new products, increased expenses associated with new product introductions of process changes, delays in developing or achieving volume production of new products, which can result in delays or failure to contribute to revenues and profits, ability of the Company to maintain its customer and vendor base and delays in and/or inability in raising additional capital.
